

Safety Data Sheet (SDS)

Reference Template — Botanical Extract Powder

Product Name	Sample Botanical Extract Powder (SAMPLE)
CAS No.	SAMPLE — per actual substance
Intended Use	Dietary supplement / food / cosmetic raw material
Supplier	Hubei DeShang Industry & Trade Co., Ltd.
Emergency Tel.	WhatsApp: +86 133 6749 4665

1. Identification

Product identifier and supplier contact as above. Recommended use: raw material for formulated finished goods.

2. Hazards Identification

Not classified as hazardous under GHS for the typical powder form. May cause mild respiratory irritation on dust inhalation; avoid prolonged skin contact.

3. Composition

Single botanical extract, standardized to declared marker. SAMPLE — full composition disclosed on batch COA.

4. First Aid

Inhalation: move to fresh air. Skin: wash with soap and water. Eyes: rinse with water 15 min. Ingestion: drink water, seek medical advice if unwell.

5. Fire Fighting

Non-flammable powder. Use suitable extinguishing media for surrounding materials. Wear self-contained breathing apparatus if smoke present.

6. Accidental Release

Sweep/vacuum spill; avoid dust. Dispose per local regulation. Ventilate area.

7. Handling & Storage

Handle in ventilated area; use dust mask if generating airborne dust. Store sealed, cool and dry, away from strong oxidizers and moisture.

8. Exposure Controls

Engineering controls: local exhaust. PPE: lab coat, gloves, dust mask, safety glasses.

9. Physical & Chemical

Appearance: fine powder. Solubility: partly water soluble (grade-dependent). Odor: characteristic.

10. Stability

Stable under recommended storage. Incompatible with strong oxidizers. Shelf life per batch label.

11. Toxicology

Low acute toxicity expected at use levels. SAMPLE — refer to batch-specific data and target-market limits.

12. Ecological

Do not release to waterways. Dispose as non-hazardous industrial waste where permitted.

13. Disposal

Per local environmental regulation. Do not discard untreated into drains.

14. Transport

Not regulated as dangerous goods in typical powder form. Confirm per mode and destination.

15. Regulatory

Halal / Kosher / Organic available per grade. Complies with relevant food/cosmetic additive rules of target market.

16. Other

This SAMPLE SDS is for reference only and must be finalized against the actual substance and destination regulation.
